

Jacksons 25 year Service Life Guarantee

on Jacksons manufactured metal products

We know that our customers appreciate the 25 year Jakcure® guarantee we offer on our timber treated products, so we have introduced a similar guarantee for the metal products in our range, that are manufactured on our premises by our own craftsmen.

We are so confident in the quality of these products they now are backed by the **25 Year Service Life Guarantee.**

Wherever you see the gold padlock symbol you can rest assured that the fencing you are investing in will have a very low life time cost. This guarantee covers all inherent defects such as design, manufacturing, finish and the product being fit for the purpose it is intended for. If any problems occur, that are not the result of accidental damage, or specific to unsuitable environments, we will replace it free of charge. This applies to the installation too.
